

Jason Davidoff

Computer science major at Virginia Tech with heavy involvement in the VT Cybersecurity Club. 4+ years of programming experience with 1 year of Linux and cyber security.

Activities

Programmer for FRC Robotics Team

- Head programmer for my high school's first robotics competition team
- Programmed in C++
- Co-captain senior year
- Taught younger students C++

VTCSec

Active member of Cybersecurity Club at Virginia Tech. Joined the first semester of Freshman year and launched my interest in cybersecurity.

Meta CTF

Cybersecurity competition at The University of Virginia where me and three other teammates participated in a jeopardy style capture the flag. We earned 9th place overall.

CCDC

National Collegiate Cyber Defense Competition participant. Was part of the eight-man team at Virginia Tech that competed in this event and had the role of Web Admin.

Commonwealth Cyber Fusion

Participated in the invite-only Cyber Fusion Cup for Virginia in 2019 on the Virginia Tech team.

Work Experience

Switchboard Operation for Saint Peter's Prep HS

Jersey City, NJ | 2015-2018

- Answered and transferred all calls and sorted mail. Was also the front desk receptionist.

Web Developer for A Brighter Outlook LLC

Richmond, VA | 2017-2018

- Created and manages the website for this Richmond based small business.

Full Stack developer for un-launched startup

Richmond, VA | 2018

- Worked on a cross-platform mobile app for someone looking to bring his idea to life. Used node JS and React Native for the front-end and back-end.
